ABOUT LREB

Kenya adopted the devolved system of governance in 2013. The Lake Region Economic Bloc (LREB) is a creation of this devolved system of government, having been the first regional economic bloc to be established in Kenya. The idea of the bloc was conceived by the then governors of the Region in 2014 and came into existence on 26th March 2018 via an LREB Executive Agreement. It is made up of 14 Counties within the Lake Victoria Basin namely; Bomet, Bungoma, Busia, Homa Bay, Kakamega, Kericho, Kisii, Kisumu, Migori, Nandi, Nyamira, Siaya, Trans Nzoia, and Vihiga. The bloc aims to leverage economies of scale through optimum but sustainable utilization of shared resources to accelerate the socio-economic transformation of the people.

The Summit brings together more than 6000 participants drawn from the 17 million strong population of the Lake Victoria Basin, development partners, and private sector investors. The proposed sponsorship of aspects of the Summit by your organization will therefore expose your products and services to a 17 million-strong population and by extension another 20 million people across the lake in Uganda and Tanzania.
